

345ROBOTICS

We combine fun and learning in a non-school setting, for kids ages 7 to 14.

Using the VexIQ robotics competition and STEM learning designed specifically for young people, we teach basic engineering principles, coding - all of which foster problem solving, cooperation, and teamwork.

2024 SUMMER PROGRAM

Morning 8:30-Noon

Afternoon 1PM-4:30PM

Week 1: July 2-5

Week 2: July 8-12

Week 3: July 15-19

Week 4: July 22-26

Week 5: July 29-August 2

Week 6: August 5-9

Week 7: August 12-16

**Sign up via our online form at
www.345robotics.org**

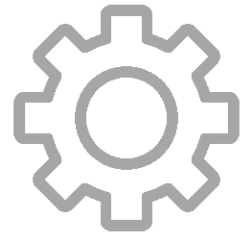

ABOUT US

345Robotics was founded by parents who are committed to making robotics inclusive and accessible to all kids in the Cayman Islands. Since 2019, we proudly have partnered with community organisations in Cayman to deliver informal robotics learning to hundreds of children.

In 2024 we are offering summer camp, aiming to support participation by all kids who are interested. (No experience necessary!)

Join us as we embark on a journey to represent the Cayman Islands in the global VexIQ Competition!
